- VODo Play is available everywhere, in all Bus seats.
- Everyone in the Bus can enjoy our content - movies, music, etc, on their own smart phone, tablet or laptop in their web browser.
- All Android (≥ 4.0) and iOS (≥ 6.0) are supported.
- Browse, the available movie catalog with posters, movie information and trailer to facilitate selecting the desired movie.
- The movie catalog includes more than 100 movies, from which 40-50 are Blockbusters that have not been shown on TV yet.
- Movies are subtitled or dubbed in at least 2 languages.
- A user buys a passcode and **can watch all the movies** while traveling on the Bus.
